Invitation

We need your help!

As a resident of Bendemeer you know how important the McDonald River is to the town. You also know that there are some problems that need to be worked out. We need your help to make a plan for the future of the McDonald.

Some members of the community have partnered with Namoi CMA to initiate the development of this plan. Namoi CMA has provided the funds you need to provide the ideas because the plan will only be as good as the community makes it.

How do you get involved?

It's easy. Come on a bus tour where you'll be fed, entertained and educated! Then you come to a meeting in Bendemeer where you will work with other members of the community to prepare the plan.

You'll meet people in the community who share your views and you'll meet some who don't. You'll learn a lot about rivers, the trees and plants that live on their banks and the birds, fish and animals that live on, in and by the River. Importantly you'll tell us what you think should happen in the future.

On the bus tour you will meet people from Nundle and Quirindi who have done what you are going to do. They made plans for the rivers in their towns and have now put those plans into action. You will see the results and hear how they did it.

How to register

To join the rest of your community just fill in the simple registration form, but be quick, places on the bus are limited and will be allocated on a first come first serve basis. You do not have to attend both events. If you cannot come on the bus trip you can still come to the workshop in Bendemeer.
