

# Field Day

## Turning the tide on Regent Honeyeaters

Join **Northern Tablelands Local Land Services** and **Landcare** to learn more about the critically endangered Regent Honeyeater and how you can help them survive.

**Wednesday 3 April 2019 - 10:00am - 1:00pm**

Five Corners Nature Reserve, 394 Halls Lane, Nullamanna

**Speakers:** **Ross Crates** Australian National University Lead Researcher  
- Regent Honeyeater

**Emily Mowat**  
Birdlife Australia NSW Woodland Birds Project Officer

**Topics:**

- identifying the main threats to Regent Honeyeaters,
- identifying food sources and habitats,
- the benefits of habitat restoration for other woodland birds,
- current programs on the Northern Tablelands, and how you can be involved.

**RSVP by Monday 1 April 2019**

**Anya Salmon**, Regional Landcare Facilitator  
E: [anya.salmon@lls.nsw.gov.au](mailto:anya.salmon@lls.nsw.gov.au) | M: 0455 481 170
