

# Moona-Winterbourne exclusion fence field day

The Moona-Winterbourne exclusion fence project creates a barrier over a total of 113km. Exclusion fencing is becoming a well utilised tool throughout Australia in control of wild dogs, introduced pests such as goats, deer and pigs and to assist in management of total grazing pressure.

## About the field day:

Will include a tour of the New Moona Winterbourne exclusion fence (within weather condition limits)

Daniel Crisp/Ben Heffernan, Waratah fencing  
Nic Crompton, Gallagher electric fencing  
Harrison? Southern Wire  
Dave Worsley, Centre for Invasive Species Solutions  
Landholder participants

Followed by a BBQ and refreshments

### Date:

Thursday 17th November 2022
