

RCS Grazing Clinic

Understand grass growth

Refresh the basics

Manage your time and system better

An introduction to regenerative agriculture through a practical hands-on workshop.

Make strides toward confidently implementing regenerative grazing management practices into your operation.

- ✓ **Practical knowledge** – Understand how to assess rest period and calculate graze period, while accurately matching stocking rate to carrying capacity. See and learn the decision making processes **in the paddock**. Get the latest on fencing, property layout, water design and moving stock.
- ✓ **Control your grazing outcomes** – through the practical application of the RCS principles, active use of our grazing chart, good use of planning tools including MaiaGrazing and functional, visionary property design for this century and careful integration of livestock into cropping systems.
- ✓ **Build your knowledge** – Learn how to assess rest periods, and effectively match stocking rate to carrying capacity. Create your own grazing chart and develop strategies for property planning and overall improved grazing management. Understand how to adapt to seasonal and climate variability, and monitor and record changes on farm.

The course has a complete focus on implementation. We deal with the “real life stuff” that counts when it comes to getting the most out of your land, livestock and business.

“A great insight into how easy it can be to make changes and take out the guess work in doing so. It’s not as hard to start changes as I thought. Every small change has a long term impact.”

– Beau Simpson, Hernani NSW

“Well delivered with good people, all of whom were open to new concepts. This has automatically saved me \$30,000 in fencing costs.”

– Jesse Moody, Tenterfield NSW

“It is an excellent short course covering the grazing principles and incorporating the practical tools and paddock examples of how to apply it in your own enterprise.”

– Zoe Burke, Halls Creek NSW
